# EQUATION FOR SUCCESS

Honsbridge aims to **EQUIP** our students with the tools they need to build their future by nurturing their leadership abilities and teamwork skills.

We **ENGAGE** our students by making learning a fun experience; utilising interactive teaching methods such as lab practicals, presentations and discussions. In addition, we encourage our students to **EXPLORE** the community around them and not just narrowly focus on schoolwork through our events and activities.

We challenge our students to **EXTEND** themselves and to go beyond their current abilities. At Honsbridge every student gets a chance to participate and improve themselves as future leaders and team-players.

This is our Equation for Success

# SUCCESS STORIES

**TAN KIM KEAT**

*Graduated June 2019*

Tan Kim Keat joined Honsbridge in Year 9 from a Chinese independent school. His English was poor when he first started and his parents hoped that he would be able to improve his English as well as develop a strong academic foundation. After 3 years he has grown as a leader by becoming an academic mentor and was Captain of his Sports House. In May 2019 he sat for the IGCSEs, achieving 2A\*s, 5Bs and 2Cs with a B in English. This was beyond his expectations! He is now studying Culinary Arts in Taylor's University.

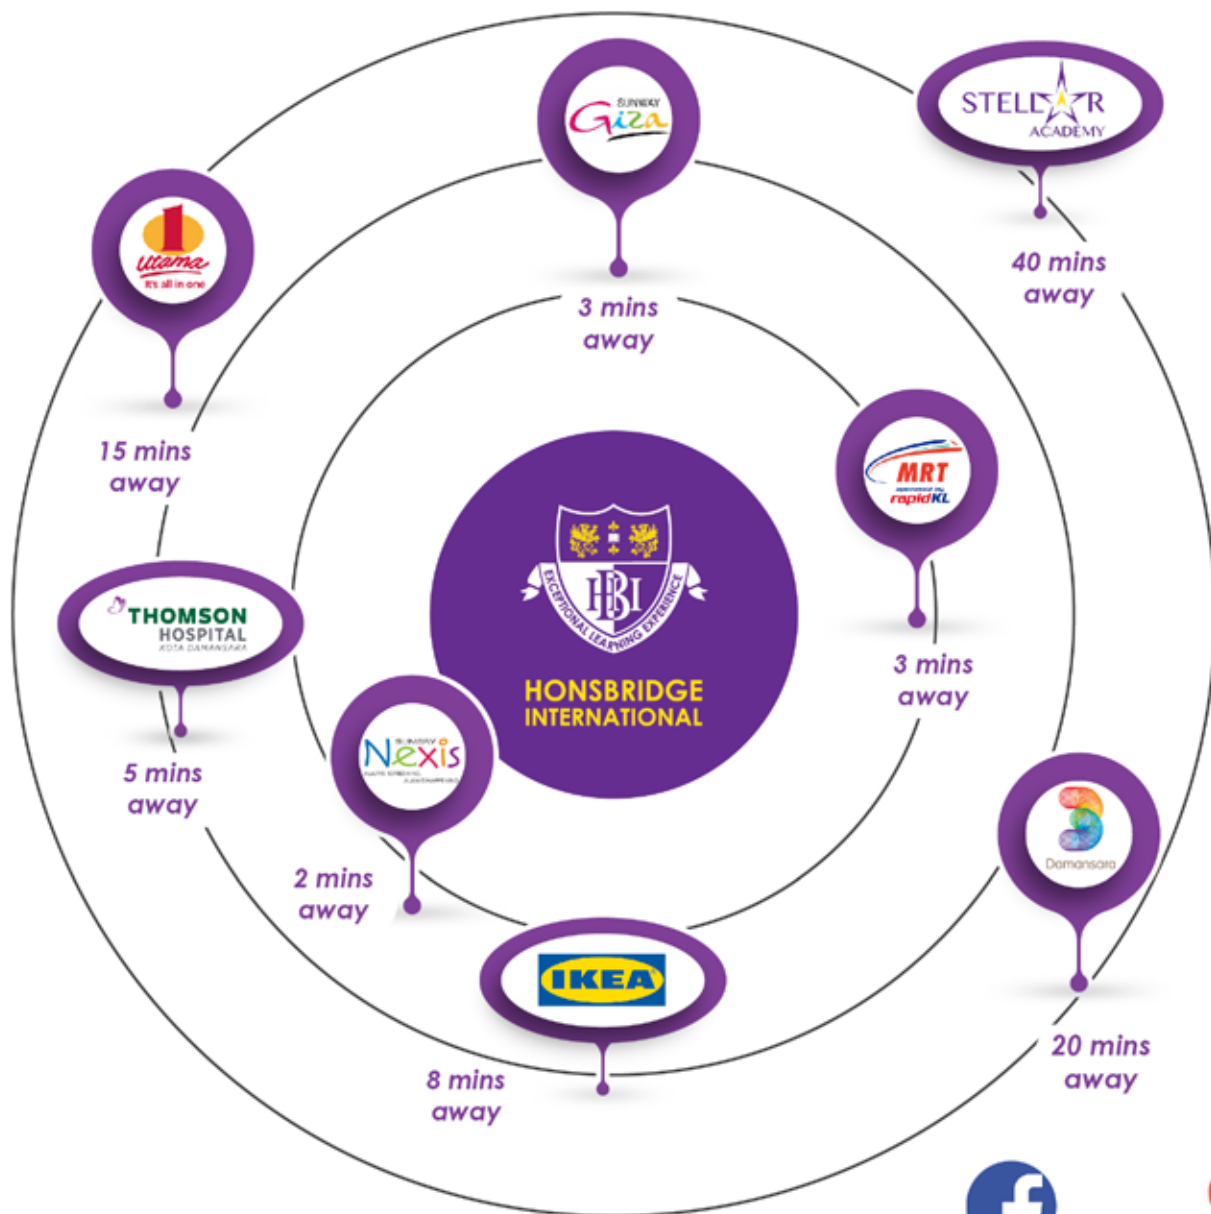

**WOO YUAN XIN**

*Graduated June 2019*

Woo Yuan Xin transferred into Honsbridge in 2016, joining the Year 8 class. Her parents were looking for an affordable alternative to other international schools that would allow her to fast-track her studies. In her 3 and a half years here she dedicated herself to her studies in our EXPRESS programme in pursuit of her dream to become a psychiatrist and also helped her school as a Student Leader. She was top of her cohort with 9As in the IGCSEs which has earned her a full scholarship in INTI International University's A Level Programme.
